Mr. Royce Larsen
Valley Stone
Park Valley, Utah 83346

Dear Mr. Larsen,

It is the understanding of the Bureau of Land Management (BLM) that you are the current operator of a landscape stone quarry located on private land near Rosebud, Utah located in Section 31, Township 11 North, Range 15 West, Salt Lake Meridian. It is our further understanding that this quarry was formally operated by Mr. Bill Bown of Bonneville Stone Quarries in West Bountiful, Utah.

Mr. Bown was granted a right-of-way for an access road across public land administered by the Bureau of Land Management (BLM) in Section 36, Township 11 North, Range 16 West, Salt Lake Meridian to access the quarry you currently operating. Since Mr. Bown apparently is no longer involved in this operation, we need you, as the current operator, to be the holder of the right-of-way, serial number UTU-81924 granted by BLM to access your quarry. To accomplish this, you would need to complete sections 1, 2, of the attached application form SF-299 and sign the form at the bottom of the second page and send it into our office. Once we receive the application, we will contact you about the necessary fees to complete the assignment of this right-of-way to you.

On another matter, Bill Bown was also granted a land use permit to use an approximately 1.1 acre site for stacking and storage of palletted stone in the SE1/4SE1/4 of Section 36 of this same township. This permit expired in 2006. Currently, this stacking and storage area is under permit (UTU-81125) to Mr. Mitch Johnson of Oakley Mountain Stone Corp of Oakley, Idaho. Your use of this area is not permitted unless you make arrangements with Mr. Johnson to jointly use this area. Unless you make such an arrangement, you are to cease use of this area within 30 days of the receipt of this notice.

Please provide us with written confirmation of any such arrangement with Oakley Mountain Stone within this 30 day timeframe or you may be subject to trespass action by this office. You may contact Mr. Johnson at (208) 862-3820.

You are encouraged to contact Mike Nelson at of my staff at (801) 977-4355 to discuss this matter and to answer any questions you may have.

Sincerely,

David H. Murphy
Assistant Field Manager
Nonrenewable Resources
